

Credit Name: CSE 2140 2nd Language Programming

Assignment Name: Digits mastery

How has your program changed from planning to coding to now? Please explain?

I use the remainder division wrong on the hundreds place

```
//Calculate the hundredsPlace  
HS = (num/10)%100;
```

So it displays different numbers

Enter a three digit number: 123

Hundreds: 12

Tens: 2

Ones: 3
